

This is, as the FCC chairman said, an abuse of power. I don't think you should show this film unless you have a similar film showing President Bush's guard mates saying how he never showed up, how his dad got him out of going to Vietnam, and how his alcoholism affected his family and friends. Instead, you want to say that Kerry is the reason that POWs were tortured. Why doesn't John McCain hate Kerry? How many lives were saved because public opinion shifted against the Vietnam War thanks to articulate anti-war Vets like Senator Kerry? Plenty, Kerry was a positive force during that time and your show is partisan and for the purpose of getting a president reelected because he is a pawn of corporate greed.
